India's Agricultural Crop Production Analysis — Project Development Phase

Project Title	India's Agricultural Crop Production Analysis
Domain	Agriculture / Data Analytics & Business Intelligence
Tool	Tableau Desktop / Tableau Public
Prepared By	Divya Kauluri (Team Project — completed individually; the team lead and other assigned members did not contribute to the work)
Tableau Public Link	https://public.tableau.com/app/profile/divya.kauluri/viz/IndiaAgricultureanalysisproject
GitHub Repository	https://github.com/divyakauluri-spec/India-s-agricultural-crop-production-analysis
Date	02/07/2026

1. Dashboards

All four dashboards below are live on Tableau Public at: <https://public.tableau.com/app/profile/divya.kauluri/viz/IndiaAgricultureanalysisproject>

Dashboard 1 — India Agricultural Performance Dashboard (Overview)

Combines all nine worksheets — KPI summary, State-wise Production Map, Trend of Agricultural Yield, Leading States by Production, Season-wise Production, Cultivated Area by Crop, State-wise Cultivated Area Comparison, Year-wise Total Production, and Production Distribution by Unit Type — into a single landing dashboard.

Dashboard 1 — India Agricultural Performance Dashboard (Overview)

Dashboard 2 — Farmer's View — Seasonal & Crop Insights

Combines Season-wise Production, Trend of Agricultural Yield, and Cultivated Area by Crop for season- and crop-level planning decisions.

Dashboard 2 — Farmer's View — Seasonal & Crop Insights

Dashboards 3 — Policy Analyst's View — Regional Performance & Trends

Combines the State-wise Production Map, State-wise Cultivated Area Comparison, Trend of Agricultural Yield, and Leading States by Production for regional policy analysis.

Dashboard 3 — Policy Analyst's View — Regional Performance & Trends

Dashboard 4 — Investor's View — Growth & Opportunity Insights

Combines Year-wise Total Production, Leading States by Production, Cultivated Area by Crop, and Production Distribution by Unit Type for investment opportunity screening.

Dashboard 4 — Investor's View — Growth & Opportunity Insights

2. Tableau Story — India's Agricultural Journey: Insights from 25 Years of Data (1997–2021)

The full guided Story is available at the same public link:
<https://public.tableau.com/app/profile/divya.kauluri/viz/IndiaAgricultureanalysisproject>

Story Point 1 — Overview

Opens with the full India Agricultural Performance Dashboard, framing the 25 years of data covered by the analysis.

Story Point 1 — Overview

Story Point 2 — Scenario 1: The Small-Scale Farmer

Rajesh, a small-scale farmer in Uttar Pradesh, wants to maximise yield and income but struggles to choose the right crops each season. The Farmer's View dashboard gives him seasonal and crop-level insights to plan better.

Story Point 2 — Scenario 1: The Small-Scale Farmer

Story Point 3 — Scenario 2: The Government Policy Analyst

Ananya, at the Ministry of Agriculture, needs to design policies that improve productivity nationwide. The Policy Analyst's View helps her identify low-yield regions and long-term production trends to allocate resources more effectively.

Story Point 3 — Scenario 2: The Government Policy Analyst

Story Point 4 — Scenario 3: The Agribusiness Investor

Vikram is looking to invest in high-growth agricultural sectors. The Investor's View lets him analyse production trends, leading states, and crop performance to identify profitable, lower-risk opportunities.

Story Point 4 — Scenario 3: The Agribusiness Investor

Story Point 5 — From Data to Decisions

Closes the Story with the message that, whether the viewer is a farmer, policymaker, or investor, 25 years of agricultural data — visualised through Tableau — turns complexity into clarity and insight into action.

Story Point 5 — From Data to Decisions
